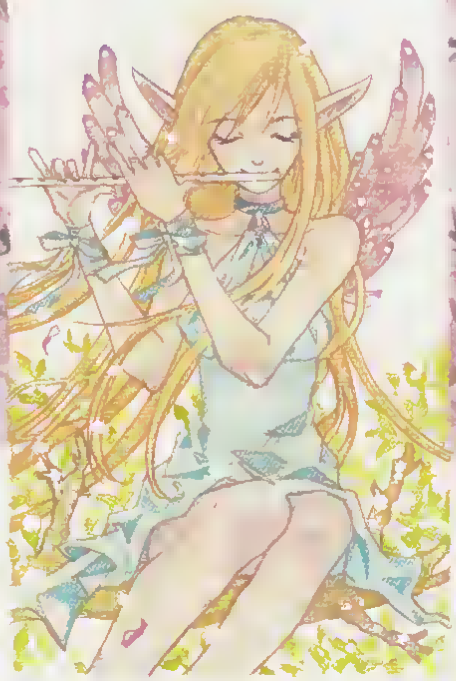
Marchen Esprit
Elf and Hunter
He is an elf hunter.
Tch! I could have caught her.
Mi Jung Kim

I met him accidentally, in the forest when he was just a boy. Our game of hide and seek has gone on since...
It's time now for him to get tired....

"I should have asked her name at least...."

My last daily ritual...

The time of dreams, when my tired body rests...



The trees... and the birds... The clouds... and the wind...

Everybody is asleep.

What is her name?
I want to know
more of her...
I want to talk to
her...
Should I let
him catch me?
